and software engineer.

Dorith Sjardijn,
textile designer with
a specialization in textiles
with light.

Workshop fee

Participation – free of charge

Registration

No later than April 1st
aldh@viauc.dk

An introduction to the field of e-textiles and wearable technology & a behind the scenes look at the works of the exhibition Pretty Smart Textiles.

Pretty Smart Textiles

09:30-11:15

How to make a light emitting textile sample.

Making an e-textile sample

11:15-11:45

It's possible to buy your lunch at TEKO's canteen Lunchbox.

Lunch Break

11:45-12:15

In groups of three you will be working with felting and electroluminescent wires. Based on your creation you will make a presentation on how we can use this technology in future products.

Workshop & Concept Development

12:15-14:15

The groups will present their works and ideas on where we will find e-textiles in the future.

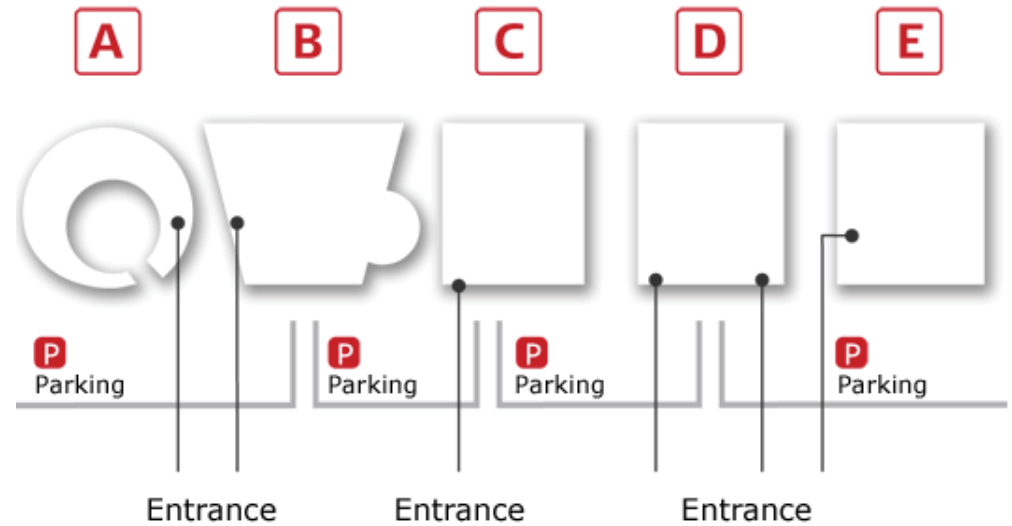

Presentation

14:15-15:30

How to find TEKO

▲ To Silkeborg and Aarhus

▼ To Herning
